

Technical Seminar “Energy Efficiency in Construction”- Bavaria, Germany

Seminar Information

Bavaria is a place of innovation, where top standard technologies are engineered and produced.

bbw International, a training institution of the Bavarian Business Associations, is responsible for preparing and carrying out delegation visits. The technical seminar is intended to bring the participating people into contact with Bavarian companies, to provide them with knowledge about innovations and technical product solutions and concepts of Bavarian companies, and to lead to business contacts with Bavarian companies. The participating individuals shall be familiarized with the latest technologies of energy-efficient construction, which are produced or applied in Bavaria.

The group of up to 18 entrepreneurs and experts is welcomed by bbw staff and guided through the program, accompanied by interpreters. Participants should have a keen interest in getting in touch with Bavarian partners and cultivating new cooperation possibilities after the trip. This technical seminar is funded with support from the Bavarian Ministry of Economic Affairs, Regional Development and Energy.

Note:

Applicants are required to submit proof of COVID-19 vaccination and carry certificates with them during travel. An insurance to cover quarantine costs is mandatory.

Application deadline: 01 September 2022
